TravelMate 540-Series

All-In-One Desktop Performance >>

The TravelMate 540 series has been designed for the professional power user in medium and large corporations, in search of a fully integrated mobile desktop replacement that provides high clock rates to drive demanding applications complete multimedia functionality and fully flexible communication facilities for non-stop connectivity to your business vision.

The advancements of notebooks

As notebooks continue to expand into the professional desktop market, there is a clear evolution of end user needs from the once exclusively stationary computing work model to an increasingly mobile and flexible world. Comprehensive all-in-one systems allow in this world ease of integration into office environments without compromising on functionality, but opening up all the advantages and benefits of a mobile desktop.

Acer's Integrated Mobile Solutions sculpture the future

The fully featured, high speed TravelMate 540 series is a sleek, all-in-one desktop replacement with enough power and speed to meet the performance requirements of today's demanding business applications. Featuring the very latest innovations in connectivity and communication and low TCO, it is the ideal desktop replacement for performance-driven executives and professionals looking for high performance and productivity levels during intense work in or out of the office.

The Power Factor

The TravelMate 540 features the considerable power and performance of the Mobile Intel® Pentium® 4 Processor with Enhanced SpeedStep™ Technology for high performance computing. In addition to 512 MB DDR RAM, the large, bright 15" TFT SXGA+ screen make the TravelMate 540 a truly mobile multimedia desktop replacement. What's more, the flexible Acer Easy-Docker, optical DVD-CDRW Combo or DVD-RW drive, integrated wired and wireless LAN, bluetooth and fax modem add up to the perfect corporate desktop replacement.

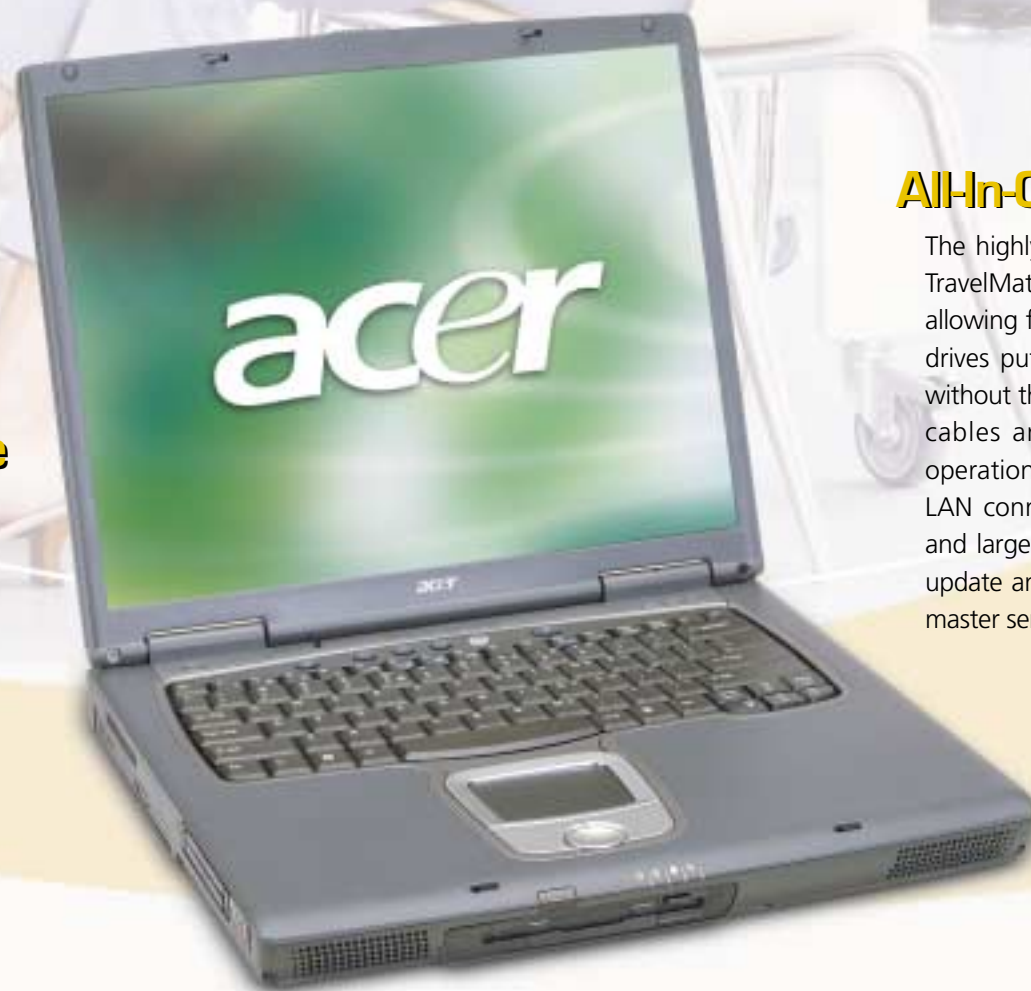

Instant Anywhere Connectivity

Away from the office, the TravelMate 540's incorporated V.92 56kbit/sec fax modem keeps you in touch with your central business world with rapid access to both email and internet, while the flexible integrated Ethernet card provides instant access to the office or home-based local area network for super fast access to data, applications and services, maximising work efficiency and guaranteeing exceptional results. The models also feature an integrated 802.11b WiFi wireless LAN card and for perfect integration into the personal professional environment, the TM540 also comes complete with Bluetooth technology for seamless connection to personal computing and communication devices.

All-In-One for efficient mobility

The highly efficient all-in-one solution provided by the TravelMate 540 incorporates all storage media types, allowing for simultaneous use of FDD, HDD and optical drives putting everything you need at your fingertips without the inconvenience of handling external devices, cables and connectors. The easy and convenient operation, in combination with the flexible Ethernet LAN connection, covers the needs of many medium and large corporations for easy preload setup, preload update and OS or application migration from a central master server.
