

# Unwired Mobility

## Unrivalled Ultraportability

Weighing less than 1.5kg and packed into a stylish, easy to handle format that is smaller than an A4 sheet of paper, the ultraportable TravelMate C110 has been designed to be used in a whole new range of situations where comfortable, one-handed input on the move is essential.

The TravelMate C110 features Intel®'s latest Centrino™ Mobile Technology for enhanced mobility, integrated flexible connectivity and enhanced battery life. Complete with an ultra low voltage Intel® Pentium® M processor, 512 (2x256) MB DDR memory, 40GB Enhanced-IDE hard disk drive, the TravelMate C110 provides top performance computing and exceptional wireless performance together with superior power independence. The 3-hour battery life allows full use of these innovative functions, and when combined with an optional second battery for the hot swappable battery bay, operational time limits become a thing of the past.

## TravelMate C110 Series

### TECHNICAL SPECIFICATIONS

	TM C111TCi
<b>Platform &amp; Core Logic</b>	Mobile Intel® Centrino™ Technology • Ultra Low Voltage Intel® Pentium® M processor at 1GHz; 1024KB L2 cache • Intel® 855GM chipset with 400MHz FSB • Wireless: Integrated Intel® PRO/Wireless 2100 network connection
<b>Memory</b>	512MB (2*256) DDR RAM upgradeable to 2048MB (two soDIMM sockets); 512KB FLASH BIOS; Shadow RAM-Support
<b>HDD</b>	40GB Enhanced-IDE hard disc drive with patented Disc Anti-Shock Protection (DASP)
<b>Storage</b>	External DVD/CD-RW combo; External USB FDD
<b>Display</b>	10.4" TFT LCD with 1024 x 768 pixel resolution, 16.7 million colours Pen input support via electro-magnetic digitiser LCD rotates to convert from notebook to tablet mode
<b>Graphics</b>	Integrated 3D VGA with DVMT technology; Simultaneous LCD and CRT display; DualView™ support
<b>Multimedia</b>	Audio system with built-in microphone and speaker; MS-Sound compatible
<b>Interfaces</b>	2 x USB 2.0; 1x Infrared (FIR) VGA for external monitor; 32bit type II PC/MIA CardBus slot; headphone jack; microphone jack; 1x IEEE 1394 port; 1 docking port; Kensington padlock socket; RJ-11 port; RJ-45 port; DC-in jack
<b>Weight and Dimensions</b>	1.45kg; 257 (W) x 216 (D) x 25.4/29.7 (H) mm
<b>Modem and Ethernet</b>	56K ITU V.92 data/fax modem and built-in 10/100Mbps Fast Ethernet
<b>Wireless Connection</b>	Integrated Intel® PRO/Wireless 2100 network connection; Integrated Bluetooth™
<b>Power</b>	ACPI 2.0 power management supporting Standby and Hibernation modes; 50W miniature AC Adapter
<b>Battery</b>	26Whr Lithium-Ion battery pack with a battery life of up to 3.0 hours; rapid charge in 1.5 hours; 2.5 hours charge-in-use
<b>Keyboard and pointer</b>	Acer "FineTouch" keyboard with a 5° curve and Windows keys; inverted "T" 84/85/88 cursor layout; TouchPad pointing system with 4-way Internet scroll key; 5 launch keys, including Internet and email (with LED for received mail) and 3 user-programmable keys
<b>Quality and Reliability tests</b>	Temperature & humidity test; free drop test; spill test; acoustics test; weight pressure tests; shock and vibration test; electrostatic discharge test; MTBF (Mean Time Between Failure) test; hinge life test; convertible hinge rotation test; screen supports test; LCD scratch test; LCD ripple test; hook durability test
<b>Operating System</b>	Microsoft® Windows® XP Tablet PC Edition
<b>Software</b>	Acer Notebook Manager; Acer Launch Manager; Norton AntiVirus™; Adobe Acrobat® Reader™; PowerDVD; NTL CD Maker™; Microsoft reader (selected languages); FranklinCovey® (trail version); TablePlanner™ (trail version); Alias SketchBook Pro™ (trail version); Zinio Reader™ (trail version)
<b>Supplied with</b>	Manual; power supply unit; battery; recovery CD; 1x CD-RW
<b>Options</b>	Additional battery; additional AC adapter; RAM extension; additional EMR stylus; additional EMR pen; external USB floppy drive; external USB CD-ROM drive; external IEEE1394 DVD/CD-RW combo drive; external battery charger; Acer EasyPort
<b>Certifications</b>	ACPI - Mobile PC2001 - DMI 2.0 - LDCM 6.0
<b>Warranty</b>	2 years warranty within EU countries including 1 year International

TM C110 - Jun 03 - www.pleasing.it

WITH MOBILE PROFESSIONALS SPENDING MORE AND MORE TIME AWAY FROM THEIR WORKSPACES, GREATER AUTONOMY MEANS GREATER ORGANISATIONAL POWER. FEATURING INTEL®'S REVOLUTIONARY CENTRINO™ MOBILE TECHNOLOGY COUPLED WITH FULL TABLET TECHNOLOGY, THE TRAVELMATE C110'S UNIQUE BLEND OF ADVANCED FEATURES AND SLEEK DESIGN DELIVERS TRUE MOBILITY BY PROVIDING BUSINESS PROFESSIONALS WITH THE RIGHT TOOL AT THE RIGHT MOMENT, ALLOWING THEM TO EXPRESS THEMSELVES FREELY, ACCESS INFORMATION ANYTIME, ANYWHERE, AND TO STAY IN TOUCH AND IN THE LEAD FOR FAR LONGER.

# Unwired Mobility

## → Improving on excellence

The TravelMate C110 provides self-employed workers, as well as professionals from small, medium and large companies with ground-breaking ultraportable solutions that go far beyond those offered by traditional notebook computers. Combining the mobility and durability of a Centrino™ powered notebook with the flexibility of pen and paper, the TravelMate C110 is designed to allow professionals to explore the potential of the very latest technology and design without compromising on security and excellent connectivity. With the TravelMate C110 in your hands, true on-the-go computing is now naturally achievable.

## → Flexible Functionality

The TravelMate C110 features a revolutionary single hinge swivelling 10.4" TFT colour LCD screen that rotates up to 180° enabling presentations to small teams sitting opposite and folds back against the keyboard to convert into a flexible Tablet PC. The screen has an active digitizer that enables users to control the system and input data directly onto the screen at the same time using the handwriting recognition features or simply scribble down a note with the electromagnetic digitizer.

Equipped with tablet buttons for simple system operation while in tablet mode, the user-friendly functionality of the TravelMate C110 provides precise, one-handed data input and operation whilst sitting at a meeting, working out of doors or even walking.

## → A Complete Security Solution

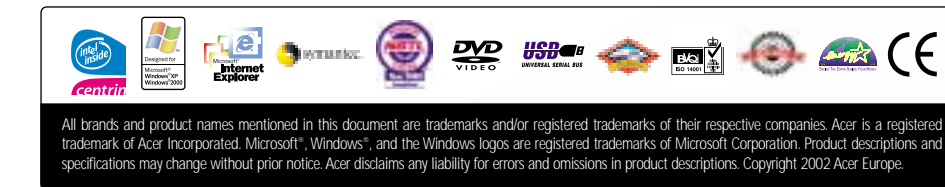

Ultraportability inevitably increases the risk of damage to the notebook. Rough treatment, harmful knocks and hidden bumps lay in wait when you least expect them. Worse still, if stolen, the notebook may be abused and, more importantly, so might your critical stored data.

To endure this unforgiving environment, the TravelMate C110 features a resistant Magnesium Alloy back panel, fibreglass chassis reinforcements, and comes complete with Acer's DASP (disk anti shock protection) and as with the rest of the TravelMate notebook PC series, it has also undergone extensive quality tests.

## → Anytime, Anywhere Connectivity

While up and about, the TravelMate C110 provides rapid dial-up connection to the web, Remote Access Servers and to email servers through the integrated V.92 56Kbit/sec fax modem. Also included is an 802.11b WiFi wireless LAN card with a data transmission speed of 11Mbit/sec, providing convenient wireless communication at an increasing number of public places such as airports, hotels and universities.

Back in the office, the TravelMate C110 can be quickly connected to the local network and the ADSL uplink through an integrated flexible 10-Base-T/100-Base-TX network card. Connections and cable handling can be made easier still with Acer's universal EasyDock.
